

$$R_F + 2R_D = 8000 + 45000 + 6000$$

$$R_F + 2R_D = 59000$$

$$2R_D = 59000 - 13,740.74$$

$$R_D = R_E = 22,629.63 \text{ lb.}$$

Students: Repeat this problem using vector formulation
